CAR LINES' MERGER WITH POWER GAINS BY SENATE REPORT

Local Electric Roads Would All , Be Included Under Committee's Proposal.

LEGISLATION GETS WIDER SCOPE BY AMENDMENT

Provisions of Senator France's Bill Combined With First Section of House Measure.

A merger of the street car companies of the District of Columbia and the Potomac Electric Power Company is authorized in a bill reported to the Senate favorably today by the

Senate District committee. The bill was introduced by Senator France of Maryland, and in its original form provided only for the merger of the Washington Railway And Electric Company and the Potomac Electric Power Company, the former owning all the stock of the latter. The Senate committee, however, amended the bill by adding the first section of the so-called Woods bill, introduced in the House, which authorizes a merger of the Capital Traction Company, the Washington Railway and Electric Company the Georgetown and Tennaleytown Railway Company, the Washington Interurban Railway Company and the City and Suburban railway of Washington. BALTIMORE, February 28 .-

Thomas E. Stone, supervising

federal prohibition enforcement agent for Maryland, Pennsylvania, District of Columbia, Virginia and part of Ohio, who assisted in a wholesale raid of the hotels in Washington last week, said today that he marvels at the chances people take in paying their good money for bootleg bottled goods.

"Ninety-ave per cent of the stuff that was seized in the Washington hotel drive was rank polson, and yet it sold for \$15 to \$25 a quart," he said.

"Fake labels and bottled in bond pasters were on all the bottles. It required an expert to establish their fraudulent character.
